To : President
 The Stock Exchange of Thailand

Subject : Notice on temporary stoppage of operations at Mini Blast Furnace (MBF)

Tata Steel (Thailand) Public Company Limited (“Company”) would like to notify the continued temporary stoppage of Mini Blast Furnace (MBF) operations at N.T.S. Steel Group Public Company Limited, subsidiary of Tata Steel (Thailand) PCL, until December 31, 2017. It may be recalled that the furnace was temporarily closed due to high raw material prices (i.e. Iron ore & Coke) which led to a higher operations cost at NTS versus the scrap route. The Company continues to operate steel making at NTS on EAF using scrap.

Please be informed accordingly.

Sincerely Yours,

Tata Steel (Thailand) Public Company Limited
